OM AUTOPUMP DIGITAL PRO

3 PHASE

The Autopump 3 Phase Digital Motor Starter and Water Level Controller is a smart solution designed to automatically manage water levels and protect 3-phase motors from electrical faults. Whether you're running a borewell pump, industrial motor, or farm irrigation system, Autopump ensures long life, safety, and hassle-free water management.

High & Low Voltage Protection –

Stops motor automatically during unsafe voltage levels.

Overload Protection –

Prevents overheating and motor burnout due to excess current.

Dry Run Protection –

Shuts down motor if water supply is insufficient, avoiding costly damage.

Single Phasing & Reverse Phasing Protection –

Ensures stable motor performance under all conditions.

Automatic Water Tank Management –

Advanced magnetic sensors maintain precise water levels.

Programmable Settings –

Customize voltage, current, and run-time according to your needs.

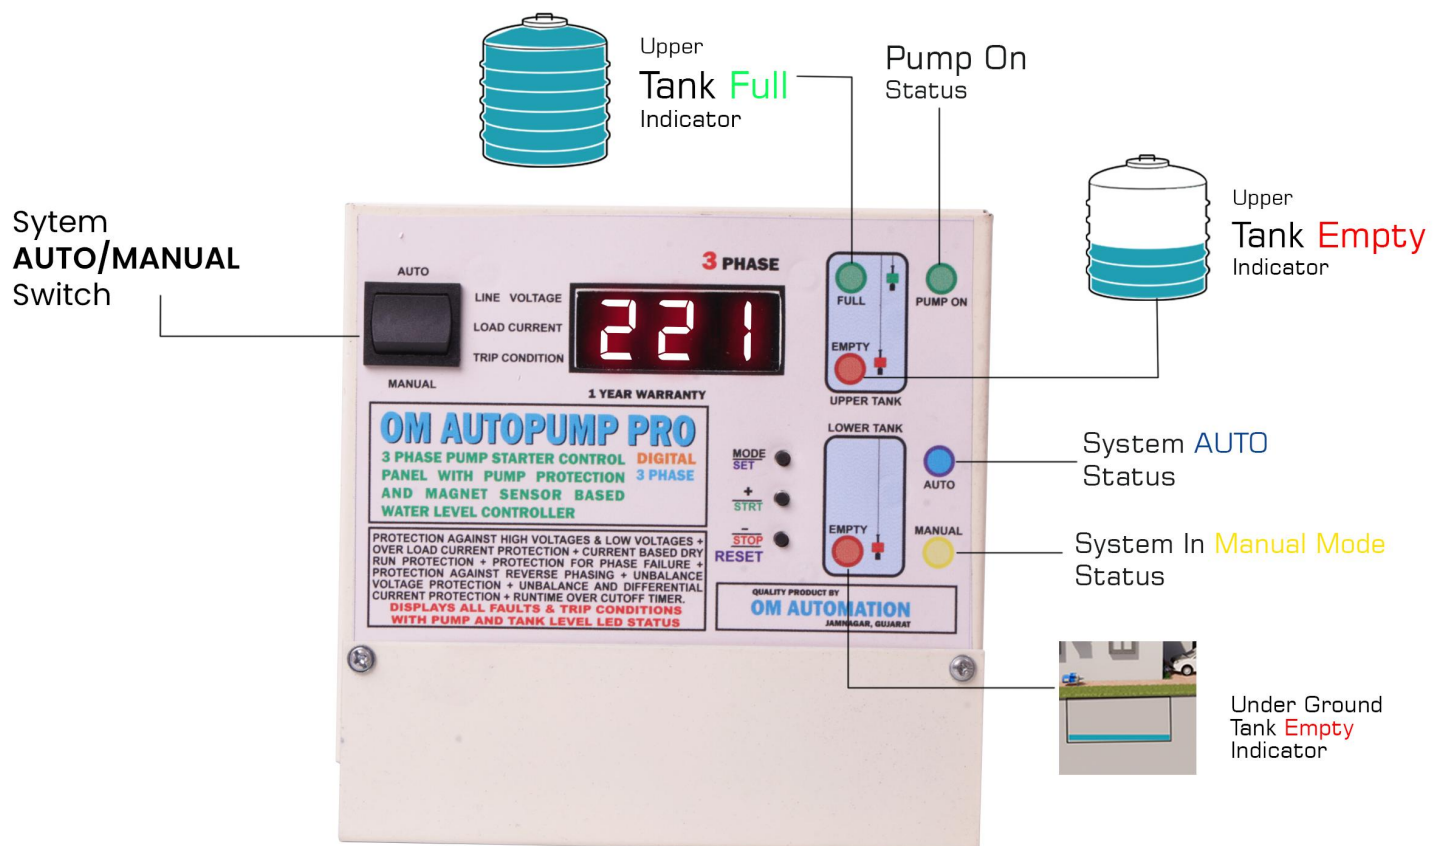

On-Time Over Trip –

Extra safeguard to prevent overflow in case of sensor failure.
