## OM AUTOTIME

The Auto Time Digital is a smart auto on/off switch that helps you control lights, pumps, and other devices automatically. With its digital timer and clock, you can set when a device should turn ON and OFF – saving electricity, time, and effort.

### Simple to Use –

Just set the clock, choose the number of times, and program ON/OFF slots step by step.

### Up to 12 Programs –

You can set your device to turn ON/OFF from 1 to 12 times in a single day.

### Bypass Switch –

Instantly turn ON the device without waiting for the program.

### Auto Stop Alert –

A buzzer beeps for 5 seconds whenever the device turns OFF.

### Manual Control –

Start or stop anytime with the push button.

### Digital Clock Display –

Works as a bright wall clock too.

### Battery Backup –

Keeps your time and settings safe during power cuts.

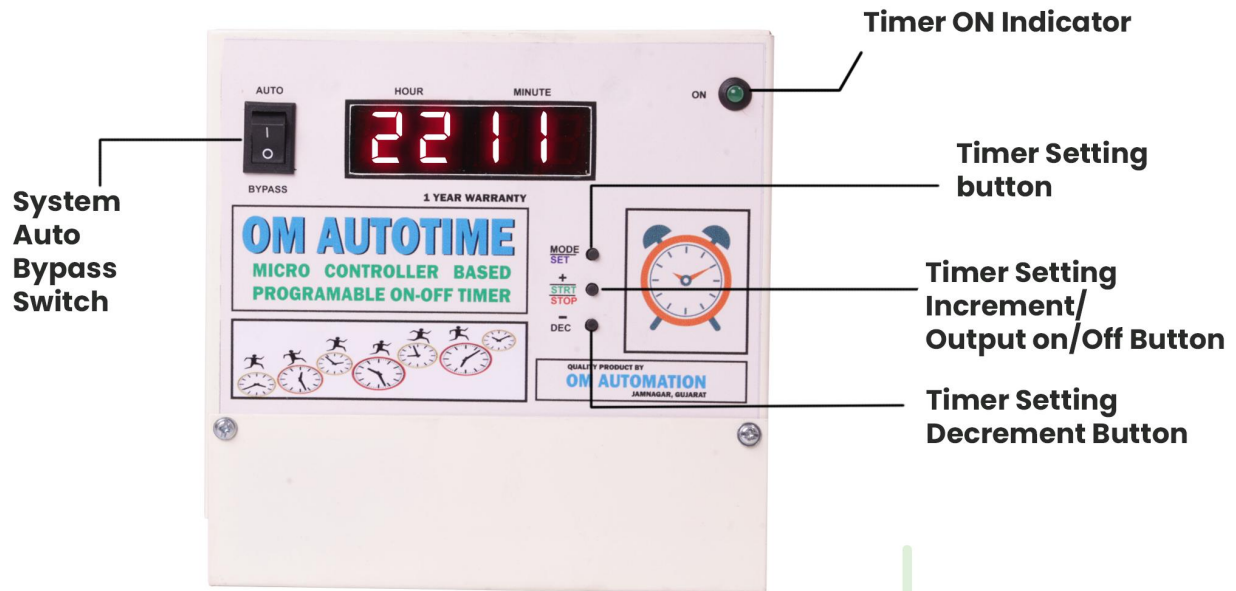

## 1 Year Warranty

### Best Uses:

Advertising boards & glow signs  
Street lights, porch, parking, and staircase lights  
Water pumps for homes, apartments, and farms
